

# Home Learning

Week 3 – Week beginning 27th April (Group 1)

## Literacy

### Reading

Attached to this email will be a **reading comprehension activity** set at the level for your child. Read through the text giving support where needed. There are comprehension questions to answer, which your child can do in a jotter or verbally with an adult.

The answers are also provided so you can support your child in real time.

### Writing

Attached to this email will be your child's weekly **spelling list in a handwriting** format. We currently use these sheets at school to aid both the practice of the spelling but also the cursive handwriting style we model in school.

You can print this off for your child to complete or they can copy the words into a jotter to practice.

### SPAG (Spelling punctuation and grammar)

Attached is a **SPAG** activity mat. There are three levels (indicated by the stars) which you can choose to share with your child. The answers are also provided so you can support in real time when needed.

## Numeracy

Follow this link to **White Rose Maths** where there are a series of **five maths lessons** for your child. Every lesson comes with a **short video** showing you clearly and simply how to help your child to complete the activity successfully.

<https://whiterosemaths.com/homelearning/year-3/>

Open (Summer term week 1 WC 20th April) – 'Equivalent fractions'

## Science

To further engage and inspire your child in the world of science each week they will have a science experiment they can try out at home with suggestions for further research.

**Fireworks in a glass**

## Foundation

<https://www.integra.co.uk/home-learning/get-computing/>

I'd like your child to focus on their computing skills this week so check out this link;

- Hour of code
- Blockly games
- J2Code turtle
- Kodu game lab

## Physical Activities

To encourage your child to still go outdoors safely and experience sports **Primary Sports and Education** have put together a pack of activities.

Inside includes some Multi-Sports activities as well as some sport specific games also. All these games are cross curricular and will need to use their English, Maths, Science, Art skills as well as many more!

	Activities	Resources Required	Potential Risks	Impact
3	<p><b>Multi-Skills - Laundry basket</b></p> <p><b>Game 1</b> - Place the basket roughly 5 big steps away from you and then the challenge is to see how many of your objects you can get to land and finish in the basket.</p> <p>Too easy? Put the basket further away! Or for an extra challenge use your weaker hand or overarm throws if the basket is far enough away but don't forget, the items need to finish in the basket!</p> <p><b>Game 2</b> - Use the basket as a goal! Stand it up on its side and put a bigger object behind it to keep it upright. Use any ball you have even if it is a tennis ball and try throwing or even kicking the ball into the basket.</p> <p>Too easy? Move the basket further away again! Roll with your weaker hand or kick using your weaker foot!</p> <p><b>Game 3</b> - Speed test! Line up 10 objects and use the basket to put the objects in. this is a shuttle run so you must pick up an item and put it into the basket. You must do this as fast as you can for every item!</p> <p>Challenge time! See who is faster, you or your parents! Time it uses your watch or phone. It is up to you how long you make the running distance or how many items you use.</p>	<p>Laundry basket</p> <p>Soft household items you can throw (socks, gloves, balls)</p> <p>Phone or a watch</p>	<p>Make sure you have enough space in the room and no objects on the floor.</p> <p>Take this outside if you have the space!</p>	<p>Listening skills and following instructions</p> <p>Endurance</p> <p>Coordination with both hands and feet</p> <p>Boosting their self-Esteem</p> <p>Competition</p>
